NEWSLETTER / APRIL / 2012

Hello friends,

I hope you all had a great Easter! I know I did, but time to get fit and healthy again after a few too many chocolates.

For those of you that are now on school holidays make sure your time off is spent having fun, but most importantly being safe. For safety tips make sure you check out my website www.ckk.com.au.

Hoping you are all enjoying your holiday time. Hope to hear from you sometime soon.

Your friend,

Kenny

Letter for Grown-Ups

It is compulsory to wear a bicycle helmet that meets the relevant Australian Standards when cycling in the ACT. Wearing a bicycle helmet can save your life. Helmets are not just for riding on the road, serious injuries can also occur on paths.

The wearing of bright colours or reflective clothing makes it easier for others to see you when cycling whether it is on the road or a path. When riding at night it is a legal requirement that your bike has a white headlight, a red taillight and a red tail reflector. Make sure you have these whether you are riding on a road, footpath or shared path. It is important that you can see when you are cycling and that you can be seen.

Your bike must be equipped with a bell, horn or similar warning device; use it to warn others that you are approaching.

Helmets should also be worn as a safety measure when riding on skateboards, roller skates/blades, ripsticks and scooters.

Jokes!

Q: Why did the onion blush?

A: It saw the salad dressing.

Q: What animal can jump higher than the Sydney Harbour Bridge?

A: All animals because bridges can't jump.

Q: Why does a frog have more lives than a cat?

A: Because it croaks every night.

Q: Where do sheep get their hair cut?

A: At the baa baa shop.

Q: Why did the emu cross the road?

A: To prove he wasn't chicken!

Riddles

Q: I am purple, yellow, red, and green. The King cannot reach me and neither can the Queen. I show my colours after the rain, and only when the sun comes out again. What am I?

A: A rainbow.

Q: Billy can throw a ball as hard as he can and it always comes back to him. Nothing and no one touches the ball except Billy. Why does the ball come back?

A: Billy is throwing the ball straight up in the air.
